Incubation Centre Development Program (ICDP)

About Us

Punjab Angels is the premier platform in India focused on building an entrepreneurship ecosystem.

We also **nurture Incubators** in actively building the understanding of venture investing as an asset class and **creating platforms** where both founders and investors can learn, invest and grow.

Our Incubation Program at Punjab Angels Network is designed to support and nurture promising startups, providing them with the resources, mentorship, and funding they need to succeed.

We help in **building ecosystem** by helping other **incubation centers**.

Transform your Incubation into Agile organization

Sessions designed to inform and inspire businesses, investors, and mentors to understand the startup ecosystem better.

Punjab Angels Network in NEWS recently

Transform 7.0 Makes Headlines

Transform 7.0 organized

CHANDIGARH In what can be termed as a major boost to the startup ecosystem of the region, famous Punjab singer-cum angel investor, Sukhbir as a co-investor has funded a startup at 'Transform 7.0', organised by Punjab Angels Network, an organisation working towards creating a startup ecosystem in Punjab. Realtime Angel Fund, Punjab Angels Network and Sukhbir together have invested a whopping Rs 1.25 crore as 'funding' to a Mumbai startup ReDesyn.

A cheque of Rs 1.25 crore was handed over to ReDesyn. Notably, this is the first time that investors from the Punjab region have infused such a big amount in a startup company. CA Sahil Makkar, Founder and CEO, Punjab Angels Network said, "In the last decade we have witnessed a paradigm shift in India's startup industry and Punjab is not being seen as an important player in providing impetus to the industry through the funding of startups in different parts of India. Today's funding will further increase the morale of startup founders not only in Punjab but other parts of the country too. Now, startups across India are looking up to the region for funding. This will help in building a vibrant startup ecosystem in the region. I am also happy that like other metro cities, Punjab particularly Mohali is fast emerging as a hub for startups."

खबर एक्सप्रेस

पंजाबी गायक सुखबीर ने 'ट्रांसफॉर्म 7.0' में किया एक स्टार्टअप में निवेश

चंडीगढ़। क्षेत्रीय स्टार्टअप इकोसिस्टम को जोरदार बढ़ावा देने के क्रम में, प्रसिद्ध पंजाबी गायक सुखबीर ने एक एंजेल निवेशक के रूप में, 'ट्रांसफॉर्म 7.0' के दौरान एक स्टार्टअप में सह-निवेशक के रूप में निवेश किया है। कार्यक्रम का आयोजन पंजाब एंजल्स नेटवर्क द्वारा किया गया था, जो पंजाब में एक स्टार्टअप इकोसिस्टम बनाने की दिशा में काम करने वाली संस्था है। रियलटाइम एंजल फंड, पंजाब एंजल्स नेटवर्क तथा गायक सुखबीर ने मुंबई के एक स्टार्टअप रिडिजाइन को एक बड़ी फंडिंग के रूप में 1.25 करोड़ रुपये का चेक सौंपा। उल्लेखनीय है कि ऐसा पहली बार हुआ है जब पंजाब के निवेशकों ने किसी स्टार्टअप कंपनी में इतनी बड़ी राशि का निवेश किया। पंजाब एंजल्स नेटवर्क के संस्थापक एवं सीईओ, सीए साहिल मक्कार ने कहा, "पिछले एक दशक में हमने भारत के स्टार्टअप उद्योग में एक अलग बदलाव देखा है और पंजाब को एक फंडिंग के जरिए भारत के प्रमुख भागों में स्टार्टअप उद्योग को प्रेरित करने वाले एक महत्वपूर्ण क्षेत्र के रूप में देखा जा रहा है। आज की फंडिंग से न केवल पंजाब बल्कि देश के अन्य हिस्सों में भी स्टार्टअप संस्थाओं का मनोबल बढ़ेगा। अब देश भर के स्टार्टअप, फंडिंग के लिए इस क्षेत्र की ओर देख रहे हैं। इससे रीजन में एक जीवंत स्टार्टअप इकोसिस्टम बनाने में मदद मिलेगी। मुझे इस बात की भी खुशी है कि अन्य देशों के शहरो की तरह पंजाब, खासतौर पर मोहाली, डेढ़ी से स्टार्टअप इव के रूप में उभर रहा है।" सुखबीर ने कहा, "ट्रांसफॉर्म 7.0 का मुझा उद्देश्य उद्यमियों को समर्थन निवेशकों के समूह में स्टार्टअप आइडियाज को प्रेरित करने का अवसर देना और क्षेत्र में स्टार्टअप संस्कृति विकसित करना था। मैं काफी उत्साहित हूँ क्योंकि पंजाब का स्टार्टअप सीन हमने आगे बढ़ा है। एक एंजेल इन्वेस्टर के रूप में मैं कुबेर बहरीन स्टार्टअप आइडियाज को तलाश में हूँ जिनको मैं स्पॉन्सर कर सकूँ। एक सफलतापूर्ण घटनाक्रम में पंजाब एंजल्स नेटवर्क 5 करोड़ रुपये की धनराशि जारी करने के लिए तैयार है, जिसने अपने सदस्यों ने स्टार्टअप में निवेश किया जाएगा। फंड का उद्देश्य क्षेत्र के स्टार्टअप उद्योग को बढ़ावा देना है।

Why is there a need for the Program?

We believe that creating an excellent incubator is challenging yet rewarding for institutions in the long term if pursued religiously.

A startup Incubator can make your institution stand out from the masses and potentially create a constructive ecosystem within the campus to support students and budding entrepreneurs.

Setting up Pre- Incubation Program (2 Months)

The program serves as an entry point for the incubation program, allowing entrepreneurs at any stage to register—a pre-incubation program for aspiring entrepreneurs and those with business ideas who are unsure how to proceed. The program is intended to help these individuals validate their ideas and develop their entrepreneurial instincts.

- Transform an idea into an actionable business plan.
- Group expert sessions by subject matter experts (SME)
- 20 virtual sessions
- Glossary and sample documents (Founder Agreements/term Sheets etc.)

Incubation Program (4 months)

After completing the 2 Months Pre-Incubation program, qualified startups are selected for Incubation. This 16-week-long in-depth incubation program is aimed to help the startup convert their idea into a profitable venture.

The program is divided into four modules:

Each Module contains various sessions covering various aspects of entrepreneurship, and the program finishes with an investor demo day.

- Subject Matter Experts (SME) sessions on laying the groundwork for the company (legal, finance, operations, marketing.)
- Access to various startup toolkits and soft credits from partner companies like AWS, Zoho, Razorpay, and more listed.
- Support in company registration, DIPP registration, MSME registration, Logo trademark, and legal support.
- Exposure to dedicated and experienced SMEs and mentors for networking
- Free benefits last till the incubation period.
- Investors' exposure with demo days

After running at least 2 Incubation Programs or 12 months of initiation, we can move to the next phase of the Accelerator Program.

Accelerator Program

This accelerator program is aimed at nurturing early revenue-generating startups to work towards self-sustainability by strengthening their sales, optimizing operations, and market expansion support by creating new networks and partnerships. Further, deep exposure to investors and aims to deliver one-to-one mentoring.

- KPI-based program delivery
- Create channel partners for strengthening the sales pipeline.
- National and international exposure
- B2B connections are formed through various collaborations with local conglomerates, professional associations, government agencies, etc., with a focus on specialized industries.
- A dedicated industry-specific mentor for guidance
- Access to the pool of sector-specific investors.

Post Acceleration Program

The program is a standalone funding program that seeks to raise capital for entrepreneurs from multiple Venture Capital funds. Our team works tirelessly to support and provide as much exposure to the investor community.

- The program is only for investment-ready startups, handpicked by the incubator committee
- Success fee for successful fundraising thru partner investors

Incubation Centre Development Program (ICDP)

The ICDP is a **capacity-building program to enable budding institutions** to design and implement world-class entrepreneurship programs, make their incubation centers, and guide them to become sustainable.

Our program is envisioned to provide aspiring organizations and early-stage budding incubators with the **right knowledge, skills, and resources** needed to establish and operate a successful incubation center.
